## **Rags to Riches – The American Dream of Success Becomes a Reality after an Amazing Struggle**

**Houston, TX, August 27, 2008** – *Antarktos Rising* is the latest science thriller from the inexhaustible imagination of Jeremy Robinson. This prolific writer has a great deal to be proud of, having suffered through many hard times, often at near poverty level. Not one to give up easily, he self-published *The Didymus Contingency* in 2005, which became a Barnes & Noble on-line best-seller. With that under his belt, he started Breakneck Books the following year using three credit cards, and self-published *Raising the Past*, as well as publishing the works of ten other authors. He later received a massive investment for Variance Publishing which absorbed Breakneck Books, and signed two separate three book deals, one with Variance and one with Thomas Dunne, an imprint of St. Martin's Press. Adding to this success, he secured an animated feature film deal for *Antarktos Rising*, which has a blockbuster big budget and will be released in 2010. Jeremy Robinson is a force to contend with – in spite of the hardships he endured, he never lost sight of his goal to succeed. His is an amazing story and a courageous example of the American spirit that never gives up.

Jeremy's latest novel, *Antarktos Rising*, is the story of an epic journey to a new world after a phenomenon, known as crustal displacement, shifts the earth's crust and repositions continents, causing countless deaths. As the world struggles to take care of its displaced billions in the wake of this global disaster, Antarctica emerges as a new hope. The leading nations devise a competition – a race to the center of Antarctica – with the three victors dividing the continent. A survivor in this race is Mirabelle Whitney, a photographer, who joins an American Special Forces unit and comes to realize there is a danger on this new continent far worse than the evil intentions of her fellow man.

Jeremy has received rave reviews for his work from numerous NY Times best-selling authors, including Steve Berry (*The Charlemagne Pursuit*), James Rollins (*The Judas Strain*), Stel Pavlou (*Decipher*), Steve Alten (*The Shell Game*), and Scott Sigler (*Ancestor*).
